

Chip System Color Guide

commercial • residential • industrial

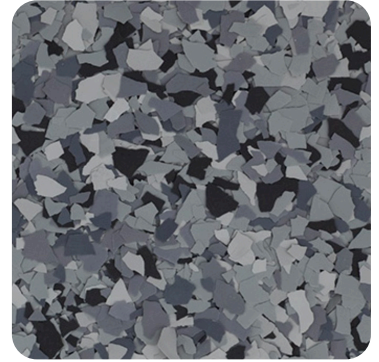

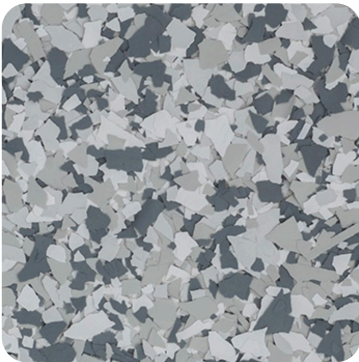

Silverton

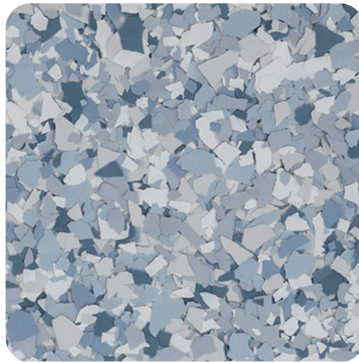

Wombat

Nightfall

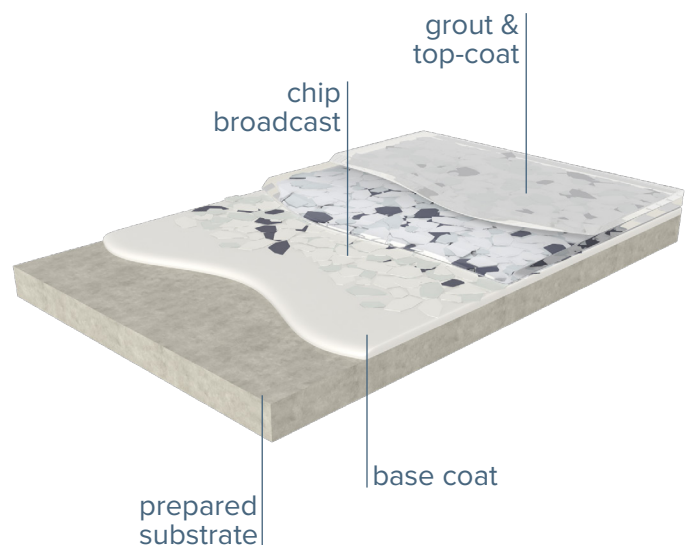

Gravel

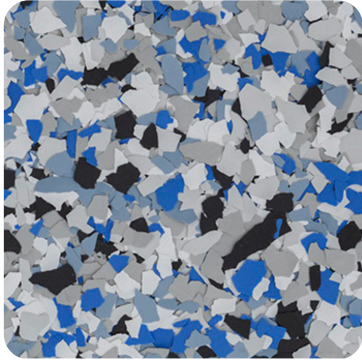

Tidal Wave

Chip flooring systems provide commercial and residential spaces with an attractive yet durable finish. These seamless applications offer ADA compliant slip resistance while requiring minimal maintenance in heavy traffic areas.

Resinwerks chip floors are built using a variety of epoxy, polyurethane concrete, urethane and polyaspartic coatings. We help you engineer a flooring system suited to your specific performance goals that will complement your environment for years to come.

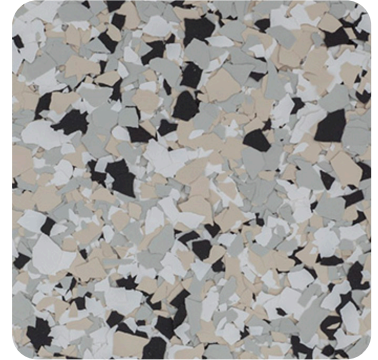

Steamboat

Creekbed

Cabin Fever

Shoreline

Sedona
